## THREE DAYS WORKSHOP ON SPSS

MEDICAL RESEARCH CENTRE/  
OFFICE OF RESEARCH INNOVATION &  
COMMERCIALIZATION

ANNOUNCES  
WORKSHOP ON

**SPSS**

**Three Days Workshop  
From 4th to 6th November 2020**

- Registration form can be obtain from MRC/ORIC, LUMHS Jamshoro

OR

- Contact: Mr. Akber Dahani at MRC/ORIC, LUMHS, Jamshoro
- Contact No: 03413683762

Registration Fee:  
Rs. 2500/-

Time:  
09:00 am to 02:00 pm

Venue:  
MRC/ORIC  
LUMHS Jamshoro

Email: [director@lumhs.edu.pk](mailto:director@lumhs.edu.pk)

MEDICAL RESEARCH CENTER/  
OFFICE OF RESEARCH INNOVATION &  
COMMERCIALIZATION

ANNOUNCES  
WORKSHOP ON

SYNOPSIS/  
RESEARCH PROPOSAL WRITING

#### INSTRUCTIONS

- ➔ In order to maintain social distancing only 10 slots are available
- ➔ No entry without mask

- Registration Form can be obtain from MRC/ORIC, LUMHS, Jamshoro  
OR
- Contact: Miss. Fakhra Zareen at MRC/ORIC, LUMHS, Jamshoro
- Date: 19th & 20th November 2020
- Venue: MRC/ ORIC, LUMHS, Jamshoro
- Time: 09:00 am to 01:00 pm

**REGISTRATION FEE:**  
RS: 1500/-

# PLAGIARISM

REGISTRATION  
FREE

MEDICAL RESEARCH CENTRE/  
OFFICE OF RESEARCH INNOVATION &  
COMMERCIALIZATION  
ANNOUNCES  
WORKSHOP ON

**PLAGIARISM**

"and how to avoid it"

**Registration Free**

Date:  
20th Nov  
2020

Venue:  
MRC/ORIC,  
LUMHS,  
Jamshoro

Time:  
09:00 am to  
02:00 pm

- Registration form can be obtain from MRC/ORIC, LUMHS, Jamshoro OR
- Contact Mr. Majeed at MRC/ORIC LUMHS, Jamshoro

# Let's Fight Covid-19 Through Innovation (No Deadline)

## Category: CS&IT

About: Ignite is looking forward to provide funding support to high-impact and short time-to market ideas that can be developed to tackle the most pressing challenges by COVID-19 outbreak.

Applications are expected from legally registered local entities including manufacturing companies, research groups from academia, R&D based industrial setup, startups and other relevant organizations. All COVID-19 related proposals would be processed on priority basis.

## Priority Areas:

- Point-of-care diagnostic
- Monitor and control
- Prophylactics and therapeutics
- Electromedical equipment
- Personal Protective Equipment
- Predictive modeling using AI
- Innovation in industrial raw materials
- Developing production process/methods
- Innovation for production line automation
- Solutions to monitor food/ration supplies
- awareness and understanding COVID-19

## Eligibility:

N/A, There is no deadline for submission of the application, however the quicker we act, the more we save our nation.

For Further information please follow the given link:

<https://ignite.org.pk/covid19/>

# Research and Institutional Capacity Strengthening in Non Communicable Diseases Call Remit and Guidance (Deadline:31st March 2021 at 1 pm UK time).

## Category: Sciences

About: NIHR Global Health Research Centre's will provide a sustainable platform for high-quality applied health research in LMIC institutions to address local needs and improve health outcomes in response to the growing global burden of disease.

## Priority Areas:

NIHR is seeking Global Health Research Centre application that take an interdisciplinary approach across participating institutions to address research in the following areas:

1. Institutional research plans that focus on NCDs in LMIC populations, at any stage(s) across the lifespan (i.e. from pregnancy/foetal development through childhood and adolescence to all stages of adulthood - including aging adults).
2. Drive innovation in the development and evaluation of cost-effective, context-relevant interventions and strategies to improve the primary and secondary prevention, treatment, management and care of NCDs and multiple long-term conditions in LMICs, which could increase the global evidence base through research on (but not limited to): Interventions to prevent NCDs in LMICs - focussing on more than one NCD across partner institutions, interventions to improve screening, diagnosis, treatment, management (or lifestyle modification plans) and care of patients with NCDs prevalent in LMICs, Interventions for the prevention of the development, and treatment, of NCDs in children and young adults, driven by malnutrition and/or poverty.
3. Scalable treatment and care approaches that integrate the management of NCDs with other diseases and multiple long-term conditions/con-morbidities (including infectious/communicable diseases and mental health), in LMICs.
4. New NCD treatment packages, or new models of care and community-based interventions that integrate both social and biomedical sciences, in order to scale up and maximise the impact of existing interventions.
5. Research to strengthen healthcare systems and delivery models in low resource settings and increase health equity in LMICs, for improved diagnosis, treatment, management and care for those affected by NCDs.

## Eligibility:

The NIHR Global Health Research programme supports high-quality applied health research for the direct and primary benefit of people in low-and middle-income countries (LMICs) on the OECD Development Assistance Committee (DAC) list, using Official Development Assistance (ODA) funding.

For further information please follow the given links:

# LIAQUAT MEDICAL RESEARCH JOURNAL

CALL FOR  
PAPERS  
FROM (LMRJ)

## Liaquat Medical Research Journal CALL FOR PAPERS

- Reflecting fields of vast range & highly quality work in biological health sciences
- Innovation opportunities that will help researcher in understanding the transformation of diseases and human health
- Rigorous peer review with streamlined decisions for publication
- Submission are welcomed in the field of health sciences
- A Journal with focuses on health care policy

### BENEFITS

Wide range and scope that covers health related issues

Quick publication and decisions

Thorough peer review and open access publication at no cost

For further details please visit:
